

Thank you for adopting!

Here's a quick summary of your adoption paperwork:

1. Medical Record
 - ❖ Your pet has been spayed/neutered and received their first round of age-appropriate vaccinations. Please take this record in to your veterinarian so they can recommend additional vaccinations and treatments as needed.
2. Free General Physical Coupon
 - ❖ This coupon will allow you to take your adopted pet in to one of the listed veterinarians for a free exam. Be sure to take your pet's medical record in with you! Aggieland Humane Society does not cover any additional medical costs after adoption.
3. One Month Health and Personality Policy
 - ❖ You have a one-month return policy with your adoption. If your adopted pet has medical issues that you are not willing or able to cover, you may return the pet with all your paperwork within the one-month policy period for a full refund. The refund policy also applies for any personality reasons, or if the pet is simply not a good fit for your home.
4. Microchip Registration
 - ❖ Your pet's microchip has been registered nationally under your name using the information you provided on your adoption application. To update your information any time after adoption, please contact 24Petwatch using the information provided on the bottom of your registration confirmation page.
5. Adoption Contract
 - ❖ Your adoption contract states that you will keep your adopted pet in a humane manner and provide a good home. You understand that Aggieland Humane Society covers no additional medical costs after adoption and your one-month health and personality policy date is listed in case you need to return the pet.
